

Computing		Year 3/4	
Focus: Networks– The internet			
Age related geographical vocabulary			
Acceptable	Able to be tolerated or allowed	Unacceptable	not satisfactory or allowable.
Accuracy	Being correct or exact		

Key Knowledge

The internet is a global network of networks

A purpose of a router is to connect networks together, send information around the internet and to choose the quickest route for information.

The internet is connected by lots of routers

The World Wide Web is part of the internet where we can visit websites and webpages.

Some websites allow you to create content on them.

.gov -> a government website

.sch.uk -> a school or college

.fr -> a website from France

.com -> a company

Autumn	Carlton Assessment Grid		
Success Criteria	Pupil Reflection		Teacher Assessment
I can demonstrate how information is shared across the internet	Before <input type="checkbox"/>	After <input type="checkbox"/>
