| Key Knowledge                          |  |                 |          |          |                    |  |  |  |  |
| 1.                                     | French does not use capital letters for the months or days.  |                 |          |          |                    |  |  |  |  |
| 2.                                     | 2. Numbers with a final digit of 1, e.g. 21, 31, 41 etc are written <b>vingt et un</b> (twenty <u>and one</u> ).  All other numbers are as they sound e.g. 34 <b>trente-quatre</b> . |                 |          |          |                    |  |  |  |  |
| 3.                                     | Don't forget the hyphen between the numbers: vingt-trois   |                 |          |          |                    |  |  |  |  |
| 4.                                     | When you say the full date in French (with the day of the week) you don't say 'the' (le)   |                 |          |          |                    |  |  |  |  |
| 5.                                     | 5. The first day of the month is different: <b>Cést le premier</b>   |                 |          |          |                    |  |  |  |  |
| Janvier Février Mars Avril             |  |                 |          |          |                    |  |  |  |  |
| 01 02 03 04                            |  |                 |          |          |                    |  |  |  |  |
|  | 05 06 07 08  |                 |          |          |                    |  |  |  |  |
| Septembre Octobre Novembre Decembre 12 |  |                 |          |          |                    |  |  |  |  |
