I can move into space showing awareness of defenders.	Before <input type="checkbox"/>	After <input type="checkbox"/>	
I can stay with a player when defending.	Before <input type="checkbox"/>	After <input type="checkbox"/>	

<p>Key Knowledge</p> <ul style="list-style-type: none"> • The term 'in possession' means that the player has the ball. • A defender needs to stay close to their attacker so they have the best chance at stopping the player from scoring. • Dribbling can look different in each sport. In football, a player makes slight touches on the ball using their feet. In hockey, a player uses slight touches with the stick and in basketball, players continuously bounce the ball. • When finding a space, a player should move away from the other team so that they can receive the ball.
