

Science		Year 1	
Focus: Our Bodies plus Senses			
Age related vocabulary			
Senses	Humans have five senses: sight, smell, taste, hearing and touch.	Sight	Your eyes let you see all of the things around you.
Smell	You smell using your nose.	Taste	Your sense of taste comes from your tongues.
Hear	Your ears let you listen to all of the things around you.	Touch	Your skin gives you the sense of touch.

	Before	After	
I can identify and name the basic parts of the human body.	<input type="checkbox"/>	<input type="checkbox"/>	
I can draw and label the basic parts of the human body.	<input type="checkbox"/>	<input type="checkbox"/>	
I can say which part of the body is associated with each sense.	<input type="checkbox"/>	<input type="checkbox"/>	

Key Knowledge

- Your brain is able to tell you what different sounds are.
- Your nose can tell if things smell nice or not.
- You may have some tastes you like or dislike. You can tell if something tastes bitter or sweet.
- When using your touch, you can tell if something is warm, cold, smooth or rough without looking at it.
