CARLTON PRIMARY SCHOOL

Computing	Year 1

Focus: Grouping Data	
Age related vocabulary	
save	To store information on a computer.

Success Criteria	Pupil Reflection		Teacher Assessment
	Carlton Assessment Grid		
I can label objects.	Before ☐	After ☐	
I can count a group of objects.	Before ☐	After ☐	
I can describe a property of an object and to group objects with similar properties.	Before ☐	After ☐	
I can count objects with the same properties.	Before ☐	After ☐	
I can compare groups of objects.	Before ☐	After ☐	

Key Knowledge
• We give labels to objects to make them easy to talk about and find. • Computers need humans to tell it what to do and how to do it. • A computer does not recognise an image (e.g., a picture of a cat), it shows the images because a human gave the image a label.
