			Carlton Assessment Grid
Success Criteria	Pupil Reflection		Teacher Assessment
I can create patterns using curved lines and lines of varying length	Before ☐	After ☐	
I can create 6 continuous tonal values using blending	Before ☐	After ☐	
I can explore the difference between hatching, cross hatching and complex hatching	Before ☐	After ☐	
I can create an observational drawing of a bauble	Before ☐	After ☐	
I can use shading and hatching techniques to complete my bauble drawing	Before ☐	After ☐	

Key Knowledge
- Shading is the process of making an area of your drawing darker to show differences in light and shape.   - The light areas show where the light is shining, the dark areas show shadows.
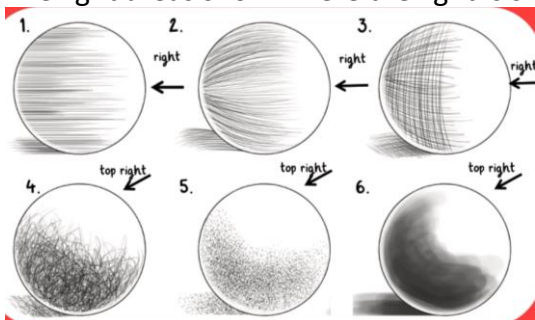

- There are different ways to use hatching, like cross hatching and complex hatching.
