

Science	Year 2
Focus: Plants	
Age related historical vocabulary	

germination	is the phase of plant growth when the seed begins to sprout	temperature	is the amount of heat or cold in something
(Y1 recap) deciduous Trees	trees that shed their leaves once a year	bud	is the young part of the plant that's almost ready to develop into a flower, leaf or new shoot
evergreen Trees	trees that have leaves throughout the year, that are always green and don't fall out		

Summer 2	Carlton Assessment Grid		
Success Criteria	Pupil Reflection		Teacher Assessment
I can describe and observe over time how seeds and bulbs grow into mature plants	Before <input type="checkbox"/>	After <input type="checkbox"/>	
I can find out and describe how plants need water, light and a suitable temperature to grow	Before <input type="checkbox"/>	After <input type="checkbox"/>	
I can use comparative and fair testing	Before <input type="checkbox"/>	After <input type="checkbox"/>	
I can describe what a plant needs to stay healthy	Before <input type="checkbox"/>	After <input type="checkbox"/>
